

## The Process of Ultrasonic Liposuction

Here at Tantalize Salon we aim to provide a relaxing and enjoyable experience. We offer a free, no-obligation consultation and the first treatment can be performed immediately after if you like. The purpose of the consultation is to:

- Discuss how the machine works
- Discuss the areas you would like to have treated
- Help us understand your requirements and what you would like to achieve from the process
- Give you all the necessary information you need on the treatment and answer any questions you may have
- Advise you on what extra lifestyle changes you may need to implement to gain the best results from the treatment course.

This revolutionary new 40 minute treatment session feels like a massage and the slimming results can be instant. Straight after the treatment you can go and get on with your normal life – your body shape can now be contoured with no pain, no scars and no down time!
